This guide will help you achieve better results in working with the "Gutter Cleaner Dirt Buster". Included in this guide, assembly instructions, safety and warning tips on how to use the "Gutter Cleaner Dirt Buster" plus maintenance program.

Assembly instructions:

See picture #1: Extendable from 51" to 88" long

- 1- Elbow (B) must slide on the smallest diameter of extension tubing (A) by aligning notches together.
- 2- Secure the elbow in place (B) by screwing the thumbscrew (to prevent thread failure, do not overtighten).
- 3- Connect vacuum cleaner flexible hose end ring (D) to inside extension tubing biggest diameter (A).
- 4- You are now ready to work.

To access higher gutters:

Please note:

* 2 Extended tubing assembled reaches 14' 8" high

* 3 Extended tubing assembled reaches 22' high maximum

* Extra "Gutter Cleaner Dirt Buster" must buy double or triple kit.

How to proceed see picture #2:

- 1- Remove elbow (B) from extension tubing (A).
- 2- Slide union (C) smallest diameter in place of the elbow, aligning notches together.
- 3- Secure in place with thumbscrew (to prevent thread failure, do not overtighten).
- 4- Add a new extension (not included) by sliding the biggest diameter inside the union (C) opening section.
- 5- Lock in place with thumbscrew (to prevent thread failure, do not overtighten).
- 6- Slide elbow (B) on the extension (A) smallest diameter remaining.
- 7- Lock elbow (B) in place with thumbscrew (to prevent thread failure, do not overtighten).
- 8- Connect to vacuum cleaner (see #3 in assembly instructions).

Now with a reach of 14' 8" high, you're ready to use your "Gutter Cleaner Dirt Buster".

For a 22' extension, you will need to use a third extension tubing (A) and repeat procedures.

User's Guide

Must read before using this unit

Use with 2.5" diameter flexible hose vacuum cleaner.

How to use the "Gutter Cleaner Dirt Buster":

Once assembled press down the red latch to slide the smallest diameter tubing to reach desired height to clean your gutters .

- Start vacuum
- Place elbow in the gutter
- To wipe out dirt, inside the gutter, make a left to right movement
- Always keep the "Gutter Cleaner Dirt Buster" in vertical position
- Clean all the gutters and enjoy the work
- Once the job finished, disconnect the "Gutter Cleaner Dirt Buster" from the vacuum
- Retract the extension tubing to its shortest position
- Vacuum cleaner should be emptied in proper place

Safety tips:

- Never use near electrical lines.
- Always place feet in stable position
- Always use "Gutter Cleaner Dirt Buster" in a vertical position when cleaning gutters
- Never try to vacuum toxic or corrosive liquid or material
- Never use "Gutter Cleaner Dirt Buster" to vacuum hot or burning material
- Protect at all time your "Gutter Cleaner Dirt Buster" from falling down on hard surface especially in extended position
- Protect the handle at all time from shocks (fragile section).
- Never use the "Gutter Cleaner Dirt Buster" as a lever

Maintenance:

Recommendation after using "Gutter Cleaner Dirt Buster"

- To clean, tubing use a garden hose to remove dirt inside
- Store the "Gutter Cleaner Dirt Buster" in a dry place
- Never pile heavy loads on the "Gutter Cleaner Dirt Buster"
- You can leave the elbow on the extension tubing to hang up the unit during storage
- For easier sliding movement of extension tubing, just spray silicone base lubricant inside the biggest diameter tubing

Included in each box:

- 1 Extension tubing
- 1 Elbow with thumbscrews installed
- 1 Union with thumbscrews installed
- 1 User's guide

Extra value:

"Gutter Cleaner Dirt Buster" extension tubing can also be used as an extension to reach common vacuum flexible hose permitting to reach difficult, long distance and intricate place to vacuum.
